

DIY POPPY WREATH

INSTRUCTIONS

Print out pages 1 and 2, and the page for your section:

Page 3 - Beavers

Page 4 - Cubs

Page 5 - Scouts

Page 6 - Explorers

Glue page 2 to cardboard from a cereal box and cut the circle and two long strips out.

Don't forget to cut the centre of the circle out so that it looks like a very big "O".

Colour the circle with green pens, pencils or crayons.

Colour the poppies on the page with your section logo red and cut them out.

Also cut out the circle with your section logo inside it.

Glue the two strips onto the back of your large "O" so that they form a "+" inside the "O".

Glue the circle with your section logo on it to the centre of the "+".

Glue your cut-out poppies to the green "O".

When all the glue has dried, hang your poppy wreath in your window.
